

IL CERL e i suoi prodotti: HPB, CERL Thesaurus, CERL Portal

**Un aggiornamento sui contenuti e
le modalità di ricerca.**

Le Origini

- Monaco di Baviera 1990 : “First International Conference on retrospective Cataloguing in Europe”
- Parigi 1992: pre-accordo e obiettivi primari (condivisione records e risorse, messa a disposizione)
- Ideazione HPB 1994: le risorse, la struttura del CERL, scelta host, la struttura della banca dati e i suoi principi.

I “Principi di Parigi” (del CERL!)

1. The database is to provide a reference tool for research and should be widely available for scholars.
2. The database should be easily accessible through telecommunication or other distributive systems.
3. The database will incorporate standard forms of locations to function as a union catalogue.
4. The database provides a facility for downloading records for catalogue creation.

(segue)

5. Unimarc is the preferred record exchange and editing format. All records submitted, irrespective of source format, are available in Unimarc.
6. The Consortium holds control over editing, amendment and deletion procedures.
7. While the Consortium is hospitable to all forms of entry point, it prefers to work with records conforming to national name authority.

The screenshot shows a Windows Internet Explorer browser window displaying the CERL website. The browser's address bar shows the URL http://www.cerl.org/web/en/membership/categories_of_membership. The website header features the CERL logo (a tree) and the text "CONSORTIUM of EUROPEAN RESEARCH LIBRARIES". A navigation menu includes links for Home, Resources, Services, Publications, Joining CERL, About CERL, Member Area, and en.

The main content area is titled "Categories of Membership" and includes a breadcrumb trail: Welcome » Joining CERL » Categories of Membership. A left sidebar contains a menu with items: Membership, Benefits of Membership, Membership Categories, Group Membership, Special Arrangements, List of Members, Legal Documents, and CERL's Organisation. Below the menu is a search box and links for News, Contact, Index, and Logout.

The main text states: "CERL has several categories of membership and also provisions for participation by non-members and commercial customers." Below this is a table with the following data:

	Annual Fee	Members	Votes	Clusters	Access (2006-07)	Committee Membership
Full	€8,000	1	1	max. 15	HPB, 200 free searches on RLG Union Catalog	yes
Group	€8,000 + multiple of €3,500	min. 2	max. 4	no	HPB, 200 free searches on RLG Union Catalog	yes
Special*	€1,000	1	1	no	HPB, 200 free searches on RLG Union Catalog	no
Associate	€150	1	no	no	-	no

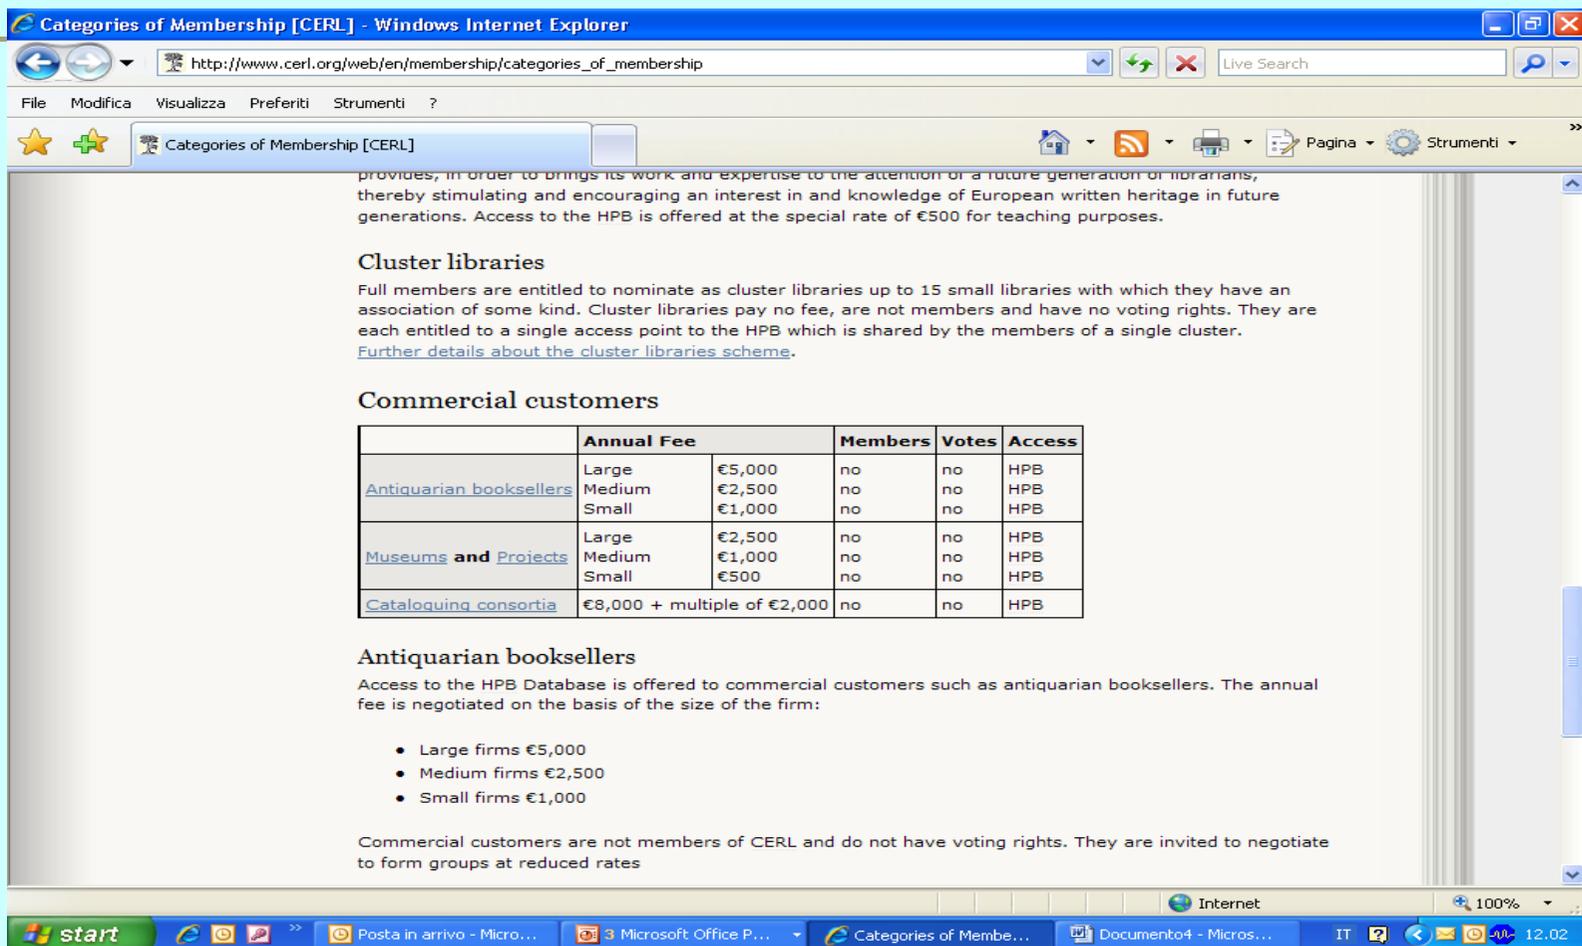

*Special Membership is only available to specialist rare-books libraries which are too small to be Full members, and collections in institutions not normally funded by public funding. Antiquarian booksellers are now classed as commercial customers (see below).

Below the table, the text "Full Membership" is partially visible.

The browser's taskbar at the bottom shows the Start button, several open applications (Posta in arrivo - Micro..., 3 Microsoft Office P..., Categories of Membe..., Documento4 - Micro...), and the system clock showing 11:59.

The Consortium seeks to share resources and expertise between research libraries with a view to improving access to, as well as exploitation and preservation of the European printed heritage in the hand-press period (up to c. 1830). The Consortium was formed in 1992 on the initiative of research libraries in many European countries and legally came into being in June 1994.

CERL Thesaurus

The CERL Thesaurus File is a unique facility developed to address the particularly European issue that place name and personal names in Europe varied from country to country in the period of hand press printing (1450 - c. 1830). As such, it is an essential research tool for scholars and researchers of the period.

The CERL Thesaurus file contains forms of imprint places, imprint names, personal names and corporate names as found in material printed before the middle of the nineteenth century - including variant spellings, forms in Latin and other languages, and fictitious names.

Authority files contributed by CERL member libraries and other libraries/projects concentrating on the history of the book are brought together and made searchable in one single system. The CERL Thesaurus merges standard and authority forms of names that are used in present day library catalogues without imposing CERL's own authoritative form of name. Instead, standard and variant forms are listed alphabetically with a clear indication of the institutions that use a particular standard form.
